

The capabilities of the iStream 2 have been enhanced since the instruction book (issue 2) was published. This document describes the new feature.

- Spotify Connect may be selected using the Mode button.

Spotify Connect

Once your Spotify account has been connected to your radio, you may start Spotify playing from the radio without needing to use the Spotify app.

Using the Mode button to select Spotify

If you have previously connected using the Spotify Connect app you may select Spotify using the mode button on your radio.

1. Press the **Mode** button to select the Spotify mode.

Please note if the power is removed you will need to re-connect Spotify with your radio using the app once again.
